Introduction

This “2019 Report to the Governor and Legislative Leaders on Power Programs for Economic Development” (“Report”) is submitted by the Power Authority of the State of New York (the “Authority” or “NYPA”) pursuant to Public Authorities Law (“PAL”) §§ 1005(18), (23) and (24)(e).

Subdivision 18 provides:

18. For the purpose of furnishing the state with systematic information regarding the status and the activities of the authority, the authority shall submit to the governor, the temporary president of the senate, speaker of the assembly, the minority leader of the senate and the minority leader of the assembly, within ninety days after the end of its fiscal year, a complete and detailed annual report on each economic development power program it administers. Such annual report shall include, but not be limited to, the following information:

- a. the number of recipients of economic power program benefits, the economic region in which each recipient is located, the type and amount of assistance provided, megawatts of power awarded, length of current contract, current contract compliance status, last audit, number of jobs retained and/or added in the fiscal year, approximate energy efficiency savings and amount of power reallocated from previous years due to forfeited benefits; and ¹*
- b. cost to the authority to provide economic development power programs during the previous fiscal year.*

Subdivision 23 provides:

23. The authority shall include in the annual report prepared pursuant to subdivision eighteen of this section, an accounting for the subject year that provides (a) the amount of expansion power and replacement power sold into the wholesale market by the authority, and (b) the net earnings, as such term is defined in section one hundred eighty-nine-a of the economic development law, paid into the western New York economic development fund.

Paragraph (e) of subdivision 24 provides:

(e) The authority shall include in the annual report prepared pursuant to subdivision eighteen of this section, an accounting for the subject year that provides the amount of St. Lawrence county economic development power sold into the wholesale market by the authority, and the net earnings paid into the northern New York economic development fund.²

To simplify the presentation of the information required by PAL § 1005(18), (23) and (24)(e), the Authority has combined the reporting requirements of these statutory provisions in this Report.

¹ None of the statutes authorizing the programs discussed in this Report require a program participant to establish energy efficiency savings in connection with the receipt of power under the program. Therefore, the Authority is unable to report on this specific information.

² PAL § 1005(14) calls for reporting on the status of “economic development power,” a program created by Chapter 32 of the Laws of 1987 which was, in the program’s later years, supported with market-based power. Components of that program were allowed to expire or were repealed in view of the creation of the Recharge New York Power program in 2011. Therefore, the economic development power program is no longer administered. Accordingly, there is no information to report on economic development power in response to PAL § 1005(14).

A. Recharge New York Power

Program Details

Chapter 60 (Part CC) of the Laws of 2011 (“Chapter 60”) created the Recharge New York (“RNY”) Power program. The RNY Power program makes 910 megawatts (“MW”) of “Recharge New York Power” (“RNY Power”) available to “eligible applicants” for the purpose of attracting new businesses and retaining and expanding existing businesses throughout the State of New York.

The RNY Power resource is comprised of: (1) fifty percent (50%) of firm hydroelectric power from the Authority’s Niagara and Saint Lawrence-FDR hydroelectric projects (“RNY Hydropower”) that was withdrawn, effective August 1, 2011, from the utility corporations that had purchased such power for the benefit of domestic and rural consumers; and (2) fifty percent (50%) of power procured by the Authority through market sources, a competitive procurement process, or Authority sources (other than the Niagara and Saint Lawrence projects) (collectively, “RNY Market Power”).

Pursuant to Chapter 60, the Authority has been authorized, as of July 1, 2012, to “make available, contract with and sell” to eligible applicants such RNY Power allocations as are

New York Presbyterian Hospital in New York City is one of several not-for-profit hospitals from throughout New York State that benefit from the ReCharge New York program. Twenty-four hour, seven-day-per-week large medical facilities use plenty of electricity and under the ReCharge program these facilities save thousands of dollars monthly in electric costs.

recommended by the Economic Development Power Allocation Board (“EDPAB”). RNY allocations consist of equal parts of RNY Hydropower and RNY Market Power.

Projected Availability

As of December 31, 2019, a balance of 190.9 MW of RNY Power was available for allocation to eligible applicants.³

Current Allocations

As of December 31, 2019, 831 allocations of RNY Power had been approved by the Authority for 728 eligible applicants totaling 719.11 MW. All current RNY Power awards, including recipient name, location, region, MW of power awarded, length of current contract, and total number of jobs committed to be retained or added are listed in Exhibit I to this Report. All program statistics include pending, suspended and in-service allocations.⁴

In 2019, Authority staff conducted a cost savings analysis for RNY customers for the period of January 1, 2018 to December 31, 2018. It was determined that RNY Power allocations collectively provided program participants an estimated cost benefit of more than \$55 million. The estimated cost benefits are based on a comparison of the cost of RNY Power vs. the local utility standard electric tariff rates, reflecting commodity and estimated delivery costs.

Steinway & Sons was founded in 1853 by Henry Engelhard Steinway in a Manhattan loft on Varick Street in New York City. Now with a manufacturing facility in Queens, NY, Steinway produces 2,600 pianos annually. This is one of many businesses across the State that benefits from the Recharge New York Program resulting in low cost hydro power in return for a commitment of jobs and capital investment.

³ This amount of unallocated RNY Power may not be available to all eligible applicants. The underlying statute specifies set-asides and caps on the amount of RNY Power that may be allocated for purposes of business retention and expansion, and certain categories of eligible applicants (e.g. small businesses and not-for-profit corporations). See Economic Development Law § 188-a(c)(4).

⁴ Examples of pending allocations include awarded allocations that (i) have not yet been addressed in a contract between NYPA and the awardee, and (ii) have been addressed in such a contract, but not yet placed into service by the awardee.

As of the end of 2019, the RNY Power program was supporting the retention and/or creation of 401,539 jobs.

Compliance Information

In 2019, Authority staff conducted its seventh annual compliance review of customers receiving power allocations under the RNY Power program for the reporting period from July 1, 2017 through June 30, 2018. The compliance review examined RNY Power customer contract compliance in 3 areas: (1) job retention; (2) capital investment; and (3) power utilization (the “Supplemental Commitment Areas”). Of all RNY customers included in this compliance review reporting period, 638 customers received RNY Power for an entire 12-month period and thus were able to be evaluated in the Supplemental Commitment Areas.

The underlying RNY Power contract specifies the customer’s commitments for job retention, capital investment and power utilization (collectively, the “Supplemental Commitments”). The Authority may reduce a customer’s RNY Power allocation and contract demand if the customer fails to achieve at least a 90% compliance rate for a specific Supplemental Commitment.

The Authority chose to enforce the Supplemental Commitment Areas at a 90% level for the RNY Power program for this specific compliance review reporting period. Where the Authority took compliance action against non-compliant customers, it also adjusted the Supplemental Commitments of such customers considering the reductions made to the power allocations and contract demands of such customers. As a result of compliance action taken for this compliance review reporting period, the Authority reduced power allocations and contract demands for 6 RNY power customers, resulting in a 0.4 MW overall reduction of allocated RNY Power for this reporting period.

Forfeiture and Reallocation

The amount of power forfeited during the reporting year for noncompliance or other reasons is approximately 61.6 MW.⁵ This amount reflects customers who did not seek to extend the term of their power allocation, resulting in the allocation’s expiration. It is not possible to identify precisely what portion of forfeited power was reallocated because at any given time during the reporting year there is some amount of unallocated power.

B. Western New York Hydropower: Expansion Power and Replacement Power

Program Details

Under PAL § 1005(13), the Authority is authorized to contract, allocate or reallocate directly, or by sale for resale, 250 MW of firm hydroelectric power as “Expansion Power” (“EP”) to eligible businesses in the State located within 30 miles of the Niagara Power Project, provided that the amount of Expansion Power allocated to businesses in Chautauqua County on January 1, 1987 continues to be allocated in such county. “Replacement Power” (“RP”) consists of 445 MW of firm hydropower generated by the Authority at its Niagara Project in accordance with PAL § 1005(13). RP is available to eligible businesses with facilities located within 30 miles of the Niagara Power Project.

Projected Availability

As of December 31, 2019, a balance of 69.9 MW of EP and a balance of 89.84 MW of RP was available for reallocation to eligible businesses.

Tulip Richardson Manufacturing As a current Western New York Hydropower customer, Tulip is a leading manufacturer of proprietary and custom injection molding products serving the industrial lead-acid battery, automotive and consumer markets. Additionally, the customer has a strong reputation as a manufacturer of lead terminals and reprocessed polypropylene. The company has been able to invest in expanding the Niagara Falls facility with the help of the hydropower program.

⁵ For purposes of this report, the Authority is interpreting the term “forfeited” to mean any instance of surrender of previously-allocated power whether due to non-compliance, a lack of need for any portion of an allocation, a reduction in the business operations of a customer, or some other reason.

“Thanks to the NYPA WNY programs TRM has been able to invest in continual expansion at our Niagara Falls facility. Without these programs these expansions might not be happening.”

JOHN SIGNORE
VP/GM of Engineered Resins & Power
Tulip Corporation

Current Allocations

As of December 31, 2019, 89 allocations of EP had been approved by the Authority to 64 companies totaling 180.11 MW. All current EP allocations, including recipient name, location, and region, MW of power awarded, length of current contract, current contract compliance status and total number of jobs committed to be retained and/or added are listed in Exhibit II to this Report. All program statistics include pending and in-service allocations.

As of December 31, 2019, 133 allocations of RP had been approved by the Authority to 74 companies totaling 355.16 MW. All current RP allocations, including recipient name, location and region, MW of power awarded, length of current contract, current contract compliance status and total number of jobs committed to be retained and/or added are listed in Exhibit II to this Report. All program statistics include pending and in-service allocations.

As a result of new allocations awarded in 2019, 305 created jobs were added under the RP program. As of the end of the 2019 fiscal year, the RP program was supporting a total of 19,887 jobs.

As of the end of the 2019 fiscal year, the EP program was supporting a total of 28,378 jobs

Compliance Information

In 2019, Authority staff conducted its annual compliance review of customers receiving hydropower under the EP and RP Program covering the reporting period of January 2018 through December 2018. The compliance review examined contract compliance in the Supplemental Commitment Areas.

Of all EP and RP customers included in this compliance review reporting period, 110 customers received EP and/or RP for an entire 12-month period and thus were able to be evaluated for compliance.

The underlying EP and RP contract requires the customer to achieve at least a 90% compliance rate for each Supplemental Commitment in order to avoid compliance action. As it did with the RNY Power Program, the Authority chose to enforce Supplemental Commitments of EP and RP customers at a 90% level for this specific compliance review reporting period. Where the Authority took compliance action against such customers, it also adjusted the Supplemental Commitments of such customers considering the reductions made to the power allocations and contract demands of such customers. As a result of compliance action taken for this compliance review reporting period, the Authority reduced power allocations and contract demands for 6 EP and/or RP customers. The total allocation reduction was 2.7 MW.

Forfeiture and Reallocation

The amount of power forfeited during the reporting year for noncompliance or other reasons is approximately 8 MW.⁶

Innomotive Solutions Group LLC A replacement power customer since 2017, Innomotive Solutions Group LLC, has been crafting quality door solutions in Western New York for specialty vehicles.

⁶ For purposes of this Report, the Authority is interpreting the term “forfeited” to mean any instance of surrender of previously-allocated power whether due to non-compliance, a lack of need for any portion of an allocation, reduction in the business operations of a customer, or some other reason.

It is not possible to identify precisely what portion of forfeited power was reallocated because at any given time there is always some amount of unallocated power. Comparing the total amount of power allocated as of the close of the reporting year with the total amount of power allocated as of the close of the previous year may provide a rough indication of allocation trends although such information may not account for changes in allocation levels that occur within a particular reporting year.

C. Preservation Power

Program Details

Chapter 313 of the Laws of 2005 established the “Preservation Power” (“PP”) program providing for the sale of 490 MW of St. Lawrence-FDR Power Project hydropower to eligible businesses within the counties of Jefferson, St. Lawrence and Franklin Counties.

Projected Availability

As of December 31, 2019, a balance of 217.9 MW of PP was available for reallocation to eligible businesses.

Current Allocations

As of December 31, 2019, 11 allocations of PP to companies had been approved by the Authority totaling 272.1 MW. All current PP allocations, including recipient name, location and region, MW of power awarded, length of current contract, current contract compliance status and total number of jobs committed to be retained and/or added are listed in Exhibit III to this Report. All program statistics include pending and in-service allocations.

As of the end of the 2019 fiscal year, the PP program was supporting a total of 2,016 jobs.

Compliance Information

In 2019, Authority staff conducted annual compliance review of customers receiving hydropower under the PP Program covering the reporting period of January 2018 through

Potsdam Specialty Paper, Inc., St. Lawrence County, NY

A current Preservation Power customer, Potsdam Specialty Paper, Inc. (St. Lawrence County), recently began operating a new paper and film coating production line.

December 2018. The compliance review examined contract compliance in 3 areas: (1) job retention; (2) power utilization; and (3) capital investment.

Of all PP customers included in this compliance review reporting period, 2 customers received PP an entire 12-month period and thus were able to be evaluated for compliance. All customers were found to be in compliance and therefore no compliance action was taken.

Forfeiture and Reallocation

The amount of power forfeited during the reporting year for noncompliance or other reasons is approximately 5.4 MW.⁷

It is not possible to identify precisely what portion of forfeited power was reallocated because at any given time there is always some amount of unallocated power. Comparing the total amount of power allocated as of the close of the reporting year with the total amount of power allocated as of the close of the previous year may provide a rough indication of allocation trends although such information may not account for changes in allocation levels that occur within a particular reporting year.

⁷ For purposes of this Report, the Authority is interpreting the term “forfeited” to mean any instance of surrender of previously-allocated power whether due to non-compliance, a lack of need for any portion of an allocation, reduction in the business operations of a customer, or some other reason.

D. High Load Factor Power

Program Details

The High Load Factor Power (“HLF”) program provides for the allocation of power to energy-intensive industries. HLF power is sourced from the market.

Current Allocations

As of December 31, 2019, three allocations of HLF power are currently allocated to three companies totaling 35.81 MW. These HLF allocations are listed in Exhibit IV to this Report.

E. Expansion Power Net Revenues for Industrial Incentive Awards

The Authority is required no less often than annually to identify the net revenues produced by the sale of EP, and further to identify an amount of the net revenues from the sale of EP that will be used for Industrial Incentive Awards. See PAL § 1005 (eight undesignated paragraph). “Net revenues” is defined to mean “any excess of revenues properly allocated to the sales of expansion power over costs and expenses properly allocated to such sales.”

For the year ending December 31, 2019, \$12,070,000 in net revenues was produced by the sale of EP. In 2019, \$5,096,960 of net revenues was paid out in Industrial Incentive Awards.

F. Western New York Economic Development Fund

The Western New York Economic Development Fund (“Fund”) was created by Chapter 58 (Part GG) of the Laws of 2012 to support economic development in Western New York. It consists of a fund, known as the “Western New York Economic Development Fund” (“Fund”), created and administered by the Authority. It is funded with the aggregate excess of revenues received by NYPA from the sale of EP and RP produced at NYPA’s Niagara Power Project that was sold in the wholesale energy market over what revenues would have been received had such power been sold on a firm basis to an eligible EP or RP customer (defined in the statute as “net earnings”).

As noted in the introduction to this Report, NYPA is required to include in this Report an accounting for the subject reporting year that provides (1) the amount of EP and RP sold into the wholesale market, and (2) the “net earnings” paid into the Fund for the reporting year.

The amount of EP and RP sold into the wholesale market for the 2019 period totaled 1,112,772 megawatt-hours. As of December 31, 2019, the Authority had deposited a total of \$41,746,000 into the Fund since inception of the program.

*Long-time Western New York hydropower customer **General Motors in Tonawanda (Erie County)** manufactures automotive engines at its powertrain campus. More than 20 megawatts of clean hydropower keeps the GM facilities running daily around the clock.*

G. Northern New York Economic Development Fund

The Northern New York Economic Development Fund (“Fund”) was created by Chapter 545 of the Laws of 2014 to support economic development in Northern New York. It consists of a fund, known as the “Northern New York Economic Development Fund,” created and administered by the Authority. It is funded with the aggregate excess of revenues received by the Authority from the sale of energy associated with “St. Lawrence county economic development power” sold by the Authority in the wholesale energy market over what revenues would have been received had such energy been sold on a firm basis under a contract between the Authority and the Town of Massena Electric Department (defined in the statute as “net earnings”).

As noted in the introduction to this Report, NYPA is required to include in this Report an accounting for the subject reporting year that provides (1) the amount of St. Lawrence County economic development power sold into the wholesale market by the Authority, and (2) the “net earnings” paid into the Fund for the reporting year.

The amount of power sold into the wholesale market for the 2019 period totaled 122,640 megawatt-hours. As of December 31, 2019, the Authority had deposited a total of \$5,016,000 into the Fund since inception of the program.

H. Cost to Provide Economic Development Power Programs

The Authority incurs no net costs from the RNY, RP, EP and PP power programs, as its costs are recovered in the rates paid to the Authority by the program participants.

AmTech Yarns, Inc. specializes in manufacturing a variety of twisted, air entangled and air textured high performance yarns for application in aerospace, fire-fighting, military, automotive, wire cabling, rope and cordage, and other industries. The company received a \$370,000 Northern New York Power Proceeds award to establish a manufacturing facility in the Massena Industrial Park enabling the company to become the only North American producer of nylon threading, thereby creating a low cost alternative for domestic customers.

ReCharge New York Customers as of December 31, 2019

Yeshiva University	New York	New York	New York City	Not-for-Profit (NFP)	In-service	90	151	7/12/26
Zweigle's, Inc.	Rochester	Monroe	Finger Lakes	Manufacturer (Large)	In-service	216	48	3/31/20
*Job commitment removed to accommodate multiple allocations at the same facility.					Totals	719,110	401,539	

(1) The customer has applied for a ReCharge New York extension which will require approval by the New York Power Authority Board of Trustees. Currently, the allocation could not be recommended for Trustee approval by the Economic Development Power Allocation Board (EDPAB) as a quorum could not be reached due to a voting recusal.

Expansion and Replacement Power Customers as of December 31, 2019
